SwitchAPI opens a sandbox for energy companies

Barcelona, 9 November 2026. There is now a sandbox for SwitchAPI, open to energy companies at switchapi.cambialeon.com.

SwitchAPI offers energy companies the switching engine as a service, in their own channel.

SwitchAPI's page went up on cambialeon.com the day before, on 8 November.

About Seldon Solutions

Seldon Solutions S.L. is an AI technology company based in Barcelona. It builds engines that answer, act and finish the job, and it runs them itself. Its products are Kalimba, the restaurant platform; QuiqSim, for travel eSIMs; Cambialeón, for electricity and gas, with SwitchAPI for energy companies; and Conomium, the same engines built for other businesses.
